

When Bad Things Happen to Good Property

Table of Contents

Biographies	xi
Foreword	xvii
Chapter 1: Introduction	
Part I: Real Estate	
I. Did Something Bad Happen to Your Property?	1
II. Scope and Purpose of This Book	3
III. Target Markets for This Book	4
IV. Why This Book Is Important: Justification of the Magnitude of the Problem	4
V. What to Expect When Reading This Book	4
Chapter 2: Economic Theory Behind Real Estate Decisionmaking With Respect to Environmental Contamination	
I. Introduction	11
II. Causality	12
III. Microeconomic Behavior	14
IV. Buying Behavior Is Similar Across Markets	19
V. Capitalization Theory.	21
VI. Negative Externality.	25
VII. Efficiency, Equity, and Environmental Justice.	27
VIII. Conclusion.	28
Chapter 3: Real Estate Theory	
I. Introduction	31
II. The Real Estate Bundle of Rights	31
III. Financing Real Estate	35
IV. When Loss From Contamination Begins and Who Bears It.	37
V. Forms a Loss Can Take.	41
VI. Conditions That Affect the Extent of Losses	51
VII. Summary and Conclusions	57

When Bad Things Happen to Good Property

Chapter 4: Peer-Reviewed Evidence on Property Value Impacts by Source of Contamination

- I. Introduction 63
- II. Overview of the Peer-Review Process 64
- III. Real Estate Analytical Methodologies. 65
- IV. Review of the Peer-Reviewed Literature 69
- V. Summary 112

Chapter 5: A Meta-Analysis of the Effect of Environmental Contamination on Residential Real Estate Values

- I. Introduction 113
- II. Extant Literature. 114
- III. Model and Data. 116
- IV. Results 122
- V. Conclusions 129

Chapter 6: Valuation of Impaired Property

- I. Introduction 135
- II. Three Approaches to Value 137
- III. Impaired Property—Background. 143
- IV. Contaminated Property—Fundamental Theoretical Issues 145
- V. Valuation Methodology Employed by Appraisers for Contaminated Property. 148
- VI. Summary, Conclusions, and Cautionary Tales. 156

Chapter 7: Activities Typically Undertaken by the Real Estate Expert Witness

- I. Introduction 159
- II. Consultant or Testifying Expert. 160
- III. Class Certification Phase. 160
- IV. Merits Phase: The Hierarchy of Studies 162
- V. Discovery and Testimony 176
- VI. Settlement Negotiations and Mediation 178
- VII. Summary 178

Part II: Legal

Chapter 8: Environmental Contamination Treatise: Overview of the Litigation Process

- I. Introduction 181

Table of Contents

II. Case Evaluation	182
III. Class Certification	193
IV. Discovery.	199
V. Expert Witnesses	202
VI. Damages	204
VII. Settlement	207
VIII. Conclusion	210
Chapter 9. Legal Background to Off-Site Contamination	
I. Introduction	213
II. Common Law: Nuisance, Trespass, and Third-Party Damages	213
III. Nuisance	213
IV. Trespass	215
V. Strict Liability.	216
VI. Third-Party Damages.	217
VII. Superfund (Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)).	217
VIII. Revolving Fund.	218
IX. Liability	218
X. Cleanups.	220
XI. CWA and OPA	225
XII. Cleanups of Oil and Hazardous Substance Discharges to Water	225
XIII. OPA.	226
XIV. RCRA	226
XV. Determining What Is Hazardous Waste.	226
XVI. Treatment, Storage, and Disposal Facilities	227
XVII. LUSTs	228
XVIII. States and Superfund	229
XIX. Conclusion	231

When Bad Things Happen to Good Property

Chapter 10: An Analysis of Toxic Tort Property Cases Filed, and Their Outcomes

I. Introduction	233
II. Filling in Missing Data	234
III. Results	237
IV. Conclusion	241

Chapter 11: The Preparation and Trial of an Environmental Contamination Case: The Plaintiff’s Perspective

I. Introduction	253
II. Case Selection and Its Economics.	253
III. Causes of Action and Venue	256
IV. The “Environmental” Expert Witness: Selection and Use	258
V. Property Damage Versus Personal Injury.	261
VI. Discovery: What to Look for and Where to Look	262
VII. Discovery Misuse and Abuse	264
VIII. The Political Arena: Of Lobbying and Being Lobbied.	267
IX. Conclusion	268

Chapter 12: Managing Environmental Exposure Claims: The Defense Perspective

I. Introduction	281
II. Context and Preconceptions.	282
III. Conclusion	303

Part III: Synthesis and Conclusions

Chapter 13: Legal Outcomes in the Context of Academic Literature

I. Introduction	307
II. Academic Data	307
III. Legal Data on Case Outcomes	308
IV. Reconciling Pollution Categories for Analysis	309
V. Caveats of This Analysis	312
VI. Research Hypotheses.	312
VII. Conclusion.	314

**Chapter 14: The Class Action Model: Is It Working?
Justice for the Lonely Pollutee**

I. Introduction 315
II. Class Action Fairness Act. 316
III. Economics of Case Selection Revisited 318
IV. Predictive Regression 320
V. Tests of Predictive Reliability Using the Outlier-Free
Model. 322
VI. Applying the Outlier-Free Model to New Data 327
VII. Applying the Predictive Model to a Larger Data Set . . . 329
VIII. The BIG MATRIX 330
IX. Limitations on the BIG MATRIX 330
X. Application of the BIG MATRIX to Specific Property. . . 331
XI. Conclusion 333

**Chapter 15: Conclusions and New Directions for Polluters
and Pollutees**

I. Introduction 337
II. General Observations 340
III. Policy Implications. 341
IV. Recommendations for Potential Plaintiffs 342
V. Recommendations for Attorneys 343
VI. Conclusion 344

Part VI: Case Studies

Case Studies 347
List of Acronyms. 379
